

**KENTUCKY WATER SCIENCE CENTER
SEDIMENT LABORATORY PRICE LIST**
(Prices effective for the period October 1, 2008 thru September 30, 2009)

SUSPENDED-SEDIMENT CONCENTRATIONS

| | |
|---|-----------------|
| Filtration method (low concentration) ----- | 19.00 |
| Evaporation method (high concentration)----- | 31.00 |
| Dissolved solids ----- | 21.00 |
| Additional containers in any composite sample ----- | 10.00/container |
| Non-tared bottles ----- | 9.00/container |

PARTICLE SIZE

| | |
|--|--------|
| Suspended-sediment sand-fine break (includes concentration)----- | 60.00 |
| Suspended-sediment, complete (base set-up charge) ----- | 60.00 |
| Bed-material dry sieve----- | 93.00 |
| Bed-material (wet, base set-up charge) ----- | 89.00 |
| **VA (suspended and bed material) ----- | 53.00 |
| **Pipet (suspended and bed material) | |
| One point – 0.004 mm ----- | 93.00 |
| Three points – 0.002mm, 0.004mm, 0.016mm ----- | 104.00 |
| Four points – 0.002mm, 0.004mm, 0.008mm, 0.016mm----- | 114.00 |
| Five points – 0.002mm, 0.004mm, 0.008mm, 0.016mm, 0.031mm | 123.00 |

****These analyses require a set-up charge listed above**

- These prices are for samples in standard pre-tared pint, quart, ISCO, or one and 3-liter Nalgene-type plastic containers only.
- Samples in over-sized containers will be charged an additional \$14.00 per container.
- All shipping charges are at the expense of the customer.
- Charges for any special services will be negotiated on a case-by-case basis.
- Rush samples are accepted with the pre-approval of the Laboratory Manager and will be charged an advance additional fee at a rate of 10% above the price per sample.
- The prices listed in this agreement are effective for the period October 1, 2008 thru September 30, 2009 and are subject to change after September 30, 2009.
